Urban Trends and Futures in Japan/East Asia

Section 1

Instructor/Title 時限	Grace Gonzalez, Ph.D.

【Course Outline / Description】

This course examines the multidimensionality of contemporary East Asian cities through an interdisciplinary approach. To this end, the course reviews state-of-the-art theoretical and empirical literatures relating to Northeast and Southeast Asian cities. Emphasis throughout the course is placed on cities as spaces of everyday life and socio-economic change.

East Asian cities have increasingly undergone socio-economic and socio-spatial restructuring in order to respond to local and global processes. Thus, while attending to global drivers of urban change, the course examines local/regional dynamics of East Asian cityscapes to shed light on their current/future challenges and prospects. The course adopts both, comparative and single case study approaches.

Key topics include: Urban socio-spatial exclusion, gentrification, peri-urbanization, and environmental sustainability, among others.

Section 2

【Course Objectives/Goals/Learning Outcomes】

Upon completion of the course, students should be able to understand the global, regional, and local processes shaping the imagery, form and function of contemporary Japanese/East Asian cities. Likewise, students are expected to critically analyze the key challenges these cities face in the foreseeable future.

【Class Schedule/Class Environment, Literature and Materials】

Teaching Methods

Teaching is delivered using a combination of lectures and group discussions (see in-class exercises below). The inclusion of roundtable, think-pair-share, and role-playing exercises throughout the course will be contingent upon the number of students registered.

Attendance

In principle, students must attend all class meetings.

*This syllabus is subject to changes and/or revisions during the term. Necessary revisions will be announced in class with prior notice.

Assignments

Attitude and Participation:

Students are expected to actively discuss and critically evaluate the assigned readings. In addition, students are expected to keep up with news on East Asian cities in leading newspapers and specialized magazines. Students will be marked on overall attitude in the classroom and quality of participation.

*Open Contents Lesson:

A lesson of the syllabus is open for students to co-create its topic/contents. Each student will submit a proposal inclusive of contents, reading assignments, and rationale (lesson 17). Proposals will be discussed collectively. The final decision will be made by consensus.

Exams:

Two exams will be administrated during the course. Guides for the mid-term final exams will be provided in advance (see Blackboard). The questions for these exams will be drawn from reading assignments and topics covered in class.

Individual Presentations:

Individual presentations will be held in lessons 28-29. Each group will prepare a 15-minute presentation for the class using software such as Prezi or Keynote or Power Point. The presentations will focus on a contemporary (city) case study chosen by each presenter. The contents of the presentation ought to draw on a minimum of seven sources of literature. Students will each submit a short report (500-700 words in length) based on their own interpretation of their case study.

Reflective Essay:

The essay will be 1,500 words in length (excluding footnotes/endnotes and bibliography) and must contain both, theoretical (conceptual/analytical framework) and empirical arguments (quantitative/qualitative data for the chosen case study). Furthermore, the essay must include a thesis statement. Students will choose their topic freely.

All written papers must be typed in Times New Roman 12-point font, double-spaced, and formatted with 2.5-cm margins. Usual conditions of citations and bibliography will apply.

*The submission of written assignments is via email (Word file attachments only).

**In cases where there are no accepted mitigating circumstances, late submission of coursework shall lead automatically to the imposition of a penalty (5% deduction). Penalties shall be applied as soon as the deadline is reached.
