## 【Course Outline / Description】

This course is designed as an early-to-intermediate stage of advanced Japanese for those who have mastered intermediate-level grammatical constructions and do not have any difficulty in daily conversation. The level of the course is suitable for students whose proficiency is at around Level 2 or slightly higher of the Japanese Language Proficiency Test (JLPT) administered by the Japan Educational Exchanges and Services (JEES). In this course, students will be exposed to more formal and/or academic topics such as educational systems, business operations, environmental issues, etc. to achieve higher ability in comprehension of both spoken and written materials in modern Japanese. Students will also have an opportunity to improve their colloquial knowledge of contemporary Japanese with attentive and intensive listening to audio-visual materials. The course will be spent on discussions, speeches, debates, and/or projects, acquiring not only N1-level grammatical structures but also advanced vocabulary and idiomatic expressions. Students will also be engaged in writing speech drafts. Prerequisite: Students must obtain D- or higher in Japanese Level 6 or its equivalent. Students who have not completed Japanese Level 6 at Kansai Gaidai University must take a Japanese language placement test.

### **【Additional Information】**

It is critical that students attend classes regularly. Your final grade will be dropped 0.5% for each absence. Be in class by the time the start bell rings. 0.2% will be deducted from your final grade, each time you are late for class. This policy is subject to change depending on the epidemic spread of COVID-19.
