

Career Seminar

Connect to Japan

“This event is designed to provide practical and strategic advice to foreign students who plan to pursue a career or graduate study in Japan and to Japanese students who would like to work for Multinational firms. Each of the speakers has followed their own path to successful careers in Japan and will offer their advice about the current job market and which strategies are most likely to lead to success. After their presentation, the speakers will remain for a networking period in which students may exchange meishi and ask questions in a more informal environment”.

-- Mark Tracy, Executive Director Asian Studies Program
